PORTFOLIO CHECKLIST
VISUAL DEVELOPMENT

My checklist to make sure my portfolio has everything Sony is looking for!

MUST HAVES

This is the information I must provide to make it easy for Sony Recruiters to see my work and contact me... can't forget these things!

- ☐ Name
- ☐ Contact Information
- ☐ Location
- ☐ Portfolio Website
  If there is a private section of my site, remember to include the password.
- ☐ Social Media
  These should be my art focused and professional accounts.
- ☐ Well Organized
  I'll include separate sections if I'm interested in more than one field in animation.

PORTFOLIO

My portfolio includes work that demonstrates:

- ☐ I understand design fundamentals.
- ☐ My draftmanship skills.
- ☐ My creative process (by including roughs and finished pieces).
- ☐ I know the process and pipeline for the job I'm applying for.
- ☐ I can work in more than one style.
- ☐ I can collaborate and create multiple versions of a design.
- ☐ My unique, artistic point-of-view.

My portfolio should include the best work I've done, work I've enjoyed making, and examples of the sort of work I want to do.
